

AFSM Committee on Healthy Aging

June 23, 2021

Coordinator: Juan Manuel Sotelo

Members: Martha Pelaez, Yvette Holder, Marlo Libel, Gloria Coe and Hernan Rosenberg

- AFSM has established a Committee on Healthy Aging in May, 2021.
- The Committee will explore how to better support AFSM members to age better as well as contribute to and support PAHO/WHO programming for the Decade on Healthy Aging.
- In order to establish a baseline for our members' health, environment and functionality, we will conduct a situation analysis as a starting point to prepare a plan of work.

This is a UN Decade on Healthy Aging and AFSM would like to participate and make a contribution together with other associations of former WHO staff in the different regions.

The Committee invites participation.
